

# Learn and apply AI

Aachen, October 14–December 3, 2021

## How to apply

Send your application (cover letter, CV, and academic transcript) via email to [IndustrialAIacademy@dcc-aachen.com](mailto:IndustrialAIacademy@dcc-aachen.com)

by 17.09.2021

Hosted by:

Digital Capability Center  
Aachen

McKinsey  
& Company

ONIA  
SOLUTIONS

intel

Microsoft

In collaboration with:

Actyx, ANTICIPATE, Halocline, ITA Academy, Neewee, ONIQ, Optimotive, Parsable, PTC, Syntactix, United Manufacturing Hub, and University4Industry.

## You'll walk away with

An understanding of Industrial Artificial Intelligence, established through the development of your own AI solution.

Access to top digital manufacturing companies and information on job opportunities.

A certificate of completion.

## Who we are looking for

Students and PhD candidates of RWTH Aachen or FH Aachen.

4+ semesters with an above-average GPA.

Individuals with basic programming skills and preferably some expertise in manufacturing.

## The program at a glance

Embark on an 8-week hands-on learning journey with a blend of on-site, remote, and self-paced activities.

Follow the solution development process from "Explore" to "Operate".

Develop your own AI solution with your team.

Commit 8 to 10 hours per week.
